Political Economy of Socialist Realism

Anchor Canada

Love is a very long word explores the parallel, ambiguous realms of freedom and love--much coveted yet unnatural states of the human mind. Combining the tradition of

Balkan lyricism with narrative modernist techniques, these bold poems witness the cross-cultural world of their subjects--from wounds to hope, struggle to wry triumph. Chronicle in Stone Guernica Editions Incorporated

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man--his honor, home, & life."--Ismail Kadare,

Albanian writer.

The question of canon has been the subject of debate in academic circles for over 15 years. This book contains two lectures on this important subject by Sir Frank Kermode who reinterprets the question of canon formation in light of two related and central notions: pleasure and change.

Hija e maleve Oxford University Press on Demand

A systematic analysis of the transformation and utilization of language as an instrument of communist politics in Albania.

Selection among Alternates in Language Standardization John Wiley & Sons

This book collects together the major published works, as well as some previously unpublished items, by Parry, who remains a major figure in Homeric studies. His work, which had been edited by his son, connected disparate contentions and observations made by preceding scholars on the Homeric question (as to who composed the poems, for example, and how they were composed). In formulating a consistent picture of what Homeric poetry was and what the conditions were that allowed it to come into being, his work continues to have a major impact in classics. This is a paperback reissue of a title first published by Clarendon Press in 1970.

An old woman is awoken in the

dead of night by knocks at her front door. The woman opens it to find her daughter, Doruntine, standing there alone in the darkness. She has been brought home from a distant land by a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?

In the last five decades various attempts to formulate theories of quantum gravity have been made, but none has fully succeeded in becoming the quantum theory of gravity. One possible explanation for this failure might be the unresolved fundamental issues in quantum theory as it stands now. Indeed, most approaches to quantum gravity adopt standard quantum theory as their starting point, with the hope that the theory's unresolved issues will get solved along the way. However, these fundamental issues may need to be solved before attempting to define a quantum theory of gravity. The present text adopts this point of view, addressing the following basic questions: What are the main conceptual issues in quantum theory? How can these issues be solved within a new theoretical framework of quantum theory? A possible way to overcome critical issues in present-day quantum physics – such as a priori assumptions about space and time that are not compatible with a theory of quantum gravity, and the impossibility of talking about systems without reference to an external observer – is through a reformulation of quantum theory in terms of a different mathematical framework called topos theory. This course-tested primer sets out to explain to graduate students and newcomers to the field alike, the reasons for choosing topos theory to resolve the above-mentioned issues and how it brings quantum physics back to looking more like a “neo-realist” classical physics theory again.

Northern Albania and Montenegro are the only regions in Europe to have retained a true tribal society up to the mid-twentieth century. This book provides the first scholarly investigation of this tribal society, a pioneer work that offers a detailed survey of all the major Albanian-speaking tribes in Albania, Montenegro and Kosovo. Robert Elsie provides comprehensive material on the 69 different tribes, including data on their locations, religious affiliations, tribal structures and relations, population statistics, tribal folklore, legends and history. Also included are excerpts from the works of prominent nineteenth and early-twentieth century writers, such as Edith Durham and Johann Georg von Hahn, who travelled through the tribal regions, as well as short biographies on prominent figures linked to the tribes. As the first book of its kind, *The Tribes of Albania* will be of interest to scholars and students of the Balkans, of southeastern European anthropology, ethnography and history.

Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

How to imagine the imagination is a topic that draws philosophers the way flowers draw honeybees. From Plato and Aristotle to Wittgenstein

and Sartre, philosophers have talked and written about this most elusive of topics--that is, until contemporary analytic philosophy of mind developed. Perhaps it is the vast range of the topic that has scared off our contemporaries, ranging as it does from mental images to daydreams. The guiding thread of this book is the distinction Colin McGinn draws between perception and imagination. Clearly, seeing an object is similar in certain respects to forming a mental image of it, but it is also different. McGinn shows what the differences are, arguing that imagination is a sui generis mental faculty. He goes on to discuss the nature of dreaming and madness, contending that these are primarily imaginative phenomena. In the second half of the book McGinn focuses on what he calls cognitive (as opposed to sensory) imagination, and investigates the role of imagination in logical reasoning, belief formation, the understanding of negation and possibility, and the comprehension of meaning. His overall claim is that imagination pervades our mental life, obeys its own distinctive principles, and merits much more attention.

The Tribes of Albania I.B. Tauris

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth

century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.

Vatra e kulturës Leipzig : Breitkopf & Härtel

From Ismail Kadare, winner of the inaugural Man Booker International Prize – a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie – the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The *Siege* tells the enthralling story of the weeks and months that follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering

chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, *The Siege* is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

Bloomsbury Publishing

A New York Times Book Review Editors' Choice "Erotic, paranoid and lightly fantastical." —The Wall Street Journal

"Ismail Kadare's readers are astonished every year when the Nobel committee overlooks him. . . . A *Girl in Exile*, published in Albanian in 2009, may rekindle the worldwide hopes." —The New York Times Book Review During the bureaucratic machinery of Albania's 1945–1991 dictatorship, playwright Rudian Stefa is called in for questioning by the Party Committee. A girl—Linda B.—has been found dead, with a signed copy of his latest book in her possession. He soon learns that Linda's family, considered suspect, was exiled to a small town far from the capital. Under the influence of a paranoid regime, Rudian finds himself swept along on a surreal quest to discover what really happened to Linda B. "At a time when parts of the world are indulging nostalgia for communism, Kadare's novel confronts the infuriating impossibility of art in an autocratic, anti-individualist system." —The Washington Post "A *Girl in Exile* confirms Kadare to be the best writer at work today who remembers—almost aggressively so, refusing to forget—European totalitarianism." —The New Republic
