This collection brings together theory and ethnographic research from a range of national contexts to offer unique insights into the nature of agency in language policy and planning. Situated within a broader sociological framework, the book explores agentive processes at work in case studies from around the world, engaging in discussions of such key themes as language and identity, language ideologies, linguistic diversity in education, and language revitalization. Each chapter examines the ways in which decisions made at both the local and

national level impact language use and in turn, the dynamic relationship between language use, policy, and practice in these contexts. Taken together, this volume advances our understanding of agency in language policy and planning and directions for future research, making this key reading for students and scholars in language and education, critical sociolinguistics, and applied linguistics.

ÿ In pursuit of societal harmony: Reviewing the experiences and approaches in officially monolingual and officially multilingual countries contains a selection of papers on language legislation that were presented at the International Conference on Language Policy in Multicultural and Multilingual Settings, Mandalay, Myanmar, 8-11 February 2016. The editors, both members of the International Academy of Language Law / Acad,mie internationale de droit linguistique, brought together presentations that deal with

language legislation and practices in Europe, Asia, Africa and North America. The contributions show that the post-communist trend in language policy has been vastly represented by attempts to eliminate the language, and even the cultural legacy, of the formerly hegemonic nation/s in countries emerging after the collapse of the system. In doing so officials in these countries tend to link the harmonisation of a diverse society with the idea of homogenising its population, and prioritising the cultural legacy of the titular nation. In contrast, some post-colonial countries are more tolerant of the language of their colonisers but consequently do not sufficiently promote the institutionalisation of their indigenous languages. Furthermore, the absence of visible efforts to follow any legal pattern in this regard often result in a communication gap between government and the various communities. In pursuit of societal harmony therefore challenges from different perspectives the populist notion of 'one nation-one language?', revealing the inherent shortcomings of attempting to establish unity through something as abstract as language without constructively addressing the actual, and mostly gross, inequalities and resulting divisions in many societies. The contributions to this Proceedings suggest that by pursuing social harmony through an alleged common language many countries unwittingly emphasise social inequalities and division and even cultivate the basis for resistance. Scholars that work in the field of language legislation and the

sociology of language and readers interested in comparative studies will find the collection of papers presented in this Proceedings an interesting read.

Nested Nationalism Routledge

How does a country find itself 'at

war' over spelling? This book

focuses on a crucial juncture in the

post-communist history of the

Czech Republic, when an

orthographic commission with a

moderate reformist agenda found

itself the focus of enormous public

controversy. Delving back into

history, Bermel explores the Czech nation's long tradition of intervention and its association with the purity of the language, and how in the twentieth century an ascendant linguistic school - Prague Functionalism - developed into a progressive but centralizing ideology whose power base was inextricably linked to the communist regime. Bermel looks closely at the reforms of the 1990s and the heated public reaction to them. On the part of language regulators, he examines the ideology that underlay the reforms and the tactics employed on all sides to gain linguistic authority, while in dissecting the public reaction, he looks both at conscious arguments marshaled in favor of and against reform and at the use, conscious and subconscious, of metaphors about language. Of interest to faculty and students working in the area of language, cultural studies, and history, especially that of transitional and post-communist states, this volume is also relevant for those with a more general interest in language planning and language reform. The book is awarded with the "The George Blazyska Prize in East European Studies 2008".

This study of women and gender in a Muslim society draws on archival and literary sources as well as the life stories of women of different generations to offer a unique ethnographic and historical account of the lives of urban women in contemporary Azerbaijan. Focussing on a group of professional women in Baku, it provides insight into the impact of the Soviet system on the position of Azeri women, their conceptions of femininity and the significant changes brought about by the post-Soviet transition to a market economy and growing western influence. Also explored are the ways in which local cultural expectations and Islamic beliefs were accommodated to different modernisation

projects.

The present companion addresses this essential yet overlooked area of research in two ways: (i) The book explores multilingualism within Iran and its neighbouring countries. (ii) It also investigates Iranian heritage languages within the diasporic context of the West. The scope of languages covered is vast: In addition to discussing Iranian minority languages such as Kurdish, Tati, and Balochi, the book explores non-Iranian minority languages such as Azeri, Tukmen, Armenian and Mandaic. Furthermore, the companion investigates Iranian heritage languages such as Wakhi, Pashto, and Persian within their diasporic and global contexts. In the current era of migration and globalization, minority and heritage speakers

are increasingly valuable resources. By focusing on the speakers, the companion provides new insights into a multitude of sociolinguistic issues including language attitude and identity, language use and literacy practices, language policy, language shift and loss. The companion is an essential reference for those interested in Iranian languages, minority languages, heritage languages, sociolinguistics, bilingualism, language policy and planning, diaspora and migration studies, as well as those researching in related fields.

This book draws on his inside knowledge of major events and extensive primary research. Tishkov argues that ethnicity has a multifaceted role: it is the most accessible basis for political mobilization; a means of controlling power and resources in a transforming society; and therapy for the great trauma suffered by individuals and groups under previous regimes. This complexity helps explain the contradictory nature and

outcomes of public ethnic policies based on a doctrine of ethno-nationalism. Azerbaijan - Culture Smart! Azerbaijani Dictionary and Phrasebook Cornell University Press In Chronotopes and Migration: Language, Social Imagination, and Behavior, Farzad Karimzad and Lydia Catedral investigate migrants' polycentric identities, imaginations, ideologies, and orientations to home and host countries through the notion of chronotope. The book focuses on the authors' ethnographically situated research with two migrant populations – Iranians and Uzbeks in the United States – to highlight the institutional constraints and individual subjectivities involved in transnational mobility. The authors provide a model for how the notion of cultural chronotope can be applied to the study of language and migration at multiple scale levels, and they showcase a

coherent picture of the ways in which chronotopes organize various aspects of migrant life. This book is a critical contribution to the conversation surrounding the sociocultural-linguistic uses of the chronotope, demonstrating its applicability not only to theorizing migration but also to theorizing language and social life more broadly.

Iranian and Minority Languages at Home and in Diaspora

The early Soviet Union's nationalities policy involved the formation of many national republics, within which "nation building" and "modernization" were undertaken for the benefit of "backward" peoples. This book, in considering how such policies were implemented in Azerbaijan, argues that the Soviet policies were in fact a form of imperialism, with "nation building" and "modernization" imposed firmly along Soviet lines. The book demonstrates that in Azerbaijan, and more widely among western Turkic peoples, the Volga and Crimean Tatars, there were before the onset of Soviet rule, well developed, forward looking, secular, national movements, which were not at all "backward" and were different from the Soviets. The book shows how in the period 1920 to 1940 the two different visions competed with each other, with eventually the pre-Soviet vision of Azerbaijani culture losing out, and the

Soviet version dominating in a new Soviet Azerbaijani culture. The book examines the details of this Sovietization of culture: in language policy and the change of the alphabet, in education, higher education and in literature. The book concludes by exploring how pre-Soviet Azerbaijani culture survived to a degree underground, and how it was partially rehabilitated after the death of Stalin and more fully in the late Soviet period.

Educational Research and Innovation Languages in a Global World Learning for Better Cultural Understanding Walter de Gruyter GmbH & Co KG

Based on frequent, first-hand reporting in Iran and the United States, *The Iran Agenda Today* explores the turbulent recent history between the two countries and reveals how it has led to a misguided showdown over nuclear technology. Foreign correspondent Reese Erlich notes that all the major U.S. intelligence agencies agree Iran has not had a nuclear weapons program since at least 2003. He explores why Washington nonetheless continues with saber rattling and provides a detailed critique of mainstream media coverage of Iran. The book further details the popular protests that have rocked Tehran despite repression by the country's Deep State. In addition to covering the political story, Erlich offers insights on Iran's domestic politics, popular culture, and diverse populations over this recent era. His analysis draws on past interviews with high-ranking Iranian officials, the former shah's son, Reza Pahlavi, and

Iranian exiles in Los Angeles, as well as the memory of his trip to Tehran with actor Sean Penn. Written in skillful and riveting journalistic prose, *The Iran Agenda Today* provides inside information that academic researchers find hard to obtain.

This dictionary pairs English, Cebuano and Spanish terms. Over 19,500 terms are included. Cebuano is named after the island of Cebu, where the prestige register is spoken, and is also known as Bisaya, Binisaya, Binisaya nga Sugbuanon or Sinugbuanon. Cebuano speakers are known as Cebuano in Cebu, as Bol-anon in Bohol, as Kana in Leyte, and as Binisaga or Bisaya in Mindanao and Luzon. Cebuano has been strongly influenced by Spanish and, since World War II, by English. It is common now for speakers of Cebuano to switch languages in the middle of sentences. Many of the words in the Cebuano section reflect English terms.
