This book examines the rapid development of the fundamental concept of a crime in international criminal law from a comparative law perspective. In this context, particular thought has been given to the catalyzing impact of the criminal law theory that has developed in major world legal systems upon the crystallization of the substantive part of international criminal law. This study offers a critical overview of international and domestic jurisprudence with regard to the construal of the concept of a crime (actus reus, mens rea, defences, modes of liability) and exposes roots of confusion in international criminal law through a comprehensive comparative

analysis of substantive criminal laws in selected legal jurisdictions.

English Grammar to Ace Biblical Hebrew enables students of biblical Hebrew to grasp the basic concepts of English grammar that are needed in order to be able to transfer these concepts to biblical Hebrew. One of the biggest problems students encounter learning biblical languages, especially Hebrew, is that they have either forgotten or simply do not know their English grammar. Concepts such as verb tense and voice, relative pronouns, antecedents, adjectival substantives, and the like, sound like familiar terms, but may seem foreign when it's time to put them to practice. With chapters such as, 'To Be or Not To Be, that is the Infinitive' and 'Pronouns:

Grammatical Stunt Doubles, ' this book is both clever and engaging. All Hebrew students will become better translators---and ultimately better pastors and leaders---with the help of this book. Tips for studying Hebrew, a glossary, and a list of additional Hebrew resources is also provided. This book is a companion to English Grammar to Ace New Testament Greek by Samuel Lamerson. **EBOOK: Diagnosis-Related Groups in Europe: Moving towards transparency, efficiency and quality in hospitals** Oxford University Press

The A-Z of Health and Safety is a major new reference work by an acknowledged expert in an area of crucial importance to every British organization, large and small, private and public. With over 100 entries arranged in an accessible index format, this extensive and fully up to date book covers everything that the Health & Safety professional needs to know in order to conform with both the law and best practice. Health and safety law and practice has changed considerably in recent years. We live in an increasingly litigious society and managers and owners face a growing number of responsibilities and obligations. With its risk assessment-based approach, this book provides a clear, expert summary of the law, issues, risks and obligations under each of the topics covered. The range of entries is extensive and the guidance both expert and practical. This book will prove a constant source of

reference and assurance to health and safety specialists across industry and commerce, HR professionals, engineering managers, lawyers, environmental health officers, safety representatives, lecturers and trainers and all those studying for degree level and NEBOSH qualifications. In addition, it will be invaluable to managers of organizations which do not have a health and safety or HR manager but who nevertheless need to know where they stand and what to do.

Educating dual language learners (DLLs) and English learners (ELs) effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELs "who account for more than 9 percent of enrollment in grades K-12 in U.S. schools" are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English:

Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

This work is a complete English translation of the Latin Etymologies of Isidore, Bishop of Seville (c.560–636). Isidore compiled the work between c.615 and the early 630s and it takes the form of an encyclopedia, arranged by subject matter. It contains much lore of the late classical world

beginning with the Seven Liberal Arts, including Rhetoric, and touches on thousands of topics ranging from the names of God, the terminology of the Law, the technologies of fabrics, ships and agriculture to the names of cities and rivers, the theatrical arts, and cooking utensils. Isidore provides etymologies for most of the terms he explains, finding in the causes of words the underlying key to their meaning. This book offers a highly readable translation of the twenty books of the Etymologies, one of the most widely known texts for a thousand years from Isidore's time.

"DSM-5-TR includes fully revised text and references, updated diagnostic criteria and ICD-10-CM codes since DSM-5 was published in 2013. It features a new disorder, prolonged

grief disorder, as well as codes for suicidal behavior available to all clinicians of any discipline without the requirement of any other diagnosis. With contributions from over 200 subject matter experts, this updated volume boasts the most current text updates based on the scientific literature. Now in four-color and with the ability to authenticate each printed copy, DSM-5-TR provides a cohesive, updated presentation of criteria, diagnostic codes, and text. This latest volume offers a common language for clinicians involved in the diagnosis and study of mental disorders and facilitates an objective assessment of symptom presentations across a variety of clinical settings—inpatient, outpatient, partial hospital, consultation-liaison, clinical, private practice, and primary care. Important updates in DSM-5-TR include 1) fully revised text for each disorder with updated sections on associated features, prevalence, development and course, risk and prognostic factors, culture, diagnostic markers, suicide, differential diagnosis, and more; 2) addition of prolonged grief disorder (PGD) to Section II; 3) over 70 modified criteria sets with helpful clarifications since publication of DSM-5; 4) fully updated Introduction and Use of the Manual to guide usage and provide context for important terminology; 5) considerations of the impact of racism and discrimination on mental disorders integrated into the text; 6) new codes to flag and monitor suicidal behavior, available to all clinicians of any discipline and without the requirement of any other diagnosis; 7) fully updated ICD-10-CM codes implemented since 2013, including over 50 coding updates new to DSM-5-TR for substance intoxication and withdrawal and other disorders"--

Dante's Divine Comedy Taylor & Francis
It's a hot, hot summer, and in the depths of the Toronto Transit Authority's Lost and Found, 17-year-old Duncan is cataloging lost things and sifting through accumulated junk. And between Jacob, the cranky old man who runs the place, and the endless dusty boxes overflowing with stuff no one will ever claim, Duncan's just about had enough. Then he finds a little leather book. It's a diary filled with the dark and dirty secrets of a twisted mind, a serial killer stalking his prey in the subway. And Duncan can't make himself stop reading. What would you do with a book like that? How far would you go to catch a madman? And what if time was running out. . . .
