"A young girl who is empowered, capable, and smart...the Enola Holmes book series convey an impactful message that you can do anything if you set your mind to it, and it does so in an exciting and adventurous way."--Millie Bobby Brown Enola Holmes is back! Nancy Springer's nationally bestselling series and breakout Netflix sensation returns to beguile readers young and old in Enola Holmes and the Black Barouche. Enola Holmes is the much younger sister of her more famous brothers, Sherlock and Mycroft. But she has all the wits, skills, and sleuthing inclinations of them both. At fifteen, she's an independent young woman--after all, her name spelled backwards reads 'alone'--and living on her own in London. When a young professional woman, Miss Letitia Glover, shows up on Sherlock's doorstep, desperate to learn more about the fate of her twin sister, it is Enola who steps up. It seems her sister, the former Felicity Glover, married the Earl of Dunhynch and per a curt note from the Earl, has died. But Letitia Glover is

convinced this isn't the truth, that she'd know--she'd feel--if her twin had died. The Earl's note is suspiciously vague and the death certificate is even more dubious, signed it seems by a John H. Watson, M.D. (who denies any knowledge of such). The only way forward is for Enola to go undercover--or so Enola decides at the vehement objection of her brother. And she soon finds out that this is not the first of the Earl's wives to die suddenly and vaguely--and that the secret to the fate of the missing Felicity is tied to a mysterious black barouche that arrived at the Earl's home in the middle of the night. To uncover the secrets held tightly within the Earl's hall, Enola is going to require help--from Sherlock, from the twin sister of the missing woman, and from an old friend, the young Viscount Tewkesbury, Marquess of Basilwether! Enola Holmes returns in her first adventure since the hit Netflix movie brought her back on the national bestseller lists, introducing a new generation to this beloved character and series.

A Question of Holmes Titan Books (US, CA)

A landmark book that completely transforms our understanding of the crisis of liberalism, from two pre-eminent intellectuals Why did the West, after winning the Cold War, lose its political balance? In the early 1990s, hopes for the eastward spread of liberal democracy were high. And yet the transformation of Eastern European countries gave rise to a bitter repudiation of liberalism itself, not only there but also back in the heartland of the West. In this brilliant work of political psychology, Ivan Krastev and Stephen Holmes argue that the supposed end of history turned out to be only the beginning of an Age of Imitation. Reckoning with the history of the last thirty years, they show that the most powerful force behind the wave of populist xenophobia that began in Eastern Europe stems from resentment at the post-1989 imperative to become Westernized. Through this prism, the Trump revolution represents an ironic fulfillment of the promise that the nations exiting from communist rule would come to resemble the United States. In a strange twist, Trump has

elevated Putin's Russia and Orbán's Hungary into models for the United States.

Written by two pre-eminent intellectuals bridging the East/West divide, *The Light that Failed* is a landmark book that sheds light on the extraordinary history of our Age of Imitation.

The Age of Wonder is a colorful and utterly absorbing history of the men and women whose discoveries and inventions at the end of the eighteenth century gave birth to the Romantic Age of Science. When young Joseph Banks stepped onto a Tahitian beach in 1769, he hoped to discover Paradise. Inspired by the scientific ferment sweeping through Britain, the botanist had sailed with Captain Cook in search of new worlds. Other voyages of discovery--astronomical, chemical, poetical, philosophical--swiftly follow in Richard Holmes's thrilling evocation of the second scientific revolution. Through the lives of William Herschel and his sister Caroline, who forever changed the public conception of the solar system; of Humphry Davy, whose near-suicidal gas experiments revolutionized chemistry; and of the great Romantic writers, from Mary Shelley to Coleridge and Keats, who were inspired by the scientific breakthroughs of their day, Holmes brings to life the era in which we first realized both the awe-inspiring and the frightening possibilities of science--an era whose consequences are with us still. **BONUS MATERIAL:** This ebook edition includes an excerpt from Richard Holmes's *Falling Upwards*.

Wayward Voyage Crown

The poems in Brittany Cavallaro's *Girl-King* are whispered from behind a series of masks, those of

victim and aggressor, nineteenth-century madam and reluctant magician's girl, of truck-stop Persephone and frustrated Tudor scholar. This "expanse of girls, expanding still," chase each other through history, disappearing in an Illinois cornfield only to reemerge on the dissection table of a Scottish artist-anatomist. But these poems are not just interested in historical narrative: they peer, too, at the past's marginalia, at its "blank pages" as well as its "scrawls and dashes." Always, they return to "the dark, indelicate question" of power and sexuality, of who can rule the "city where no one is from." These girls search for the connection between "alive and will stay that way," between each dying star and the emptiness that can collapse everything.

The Final Problem Macmillan NATIONAL BESTSELLER • The gripping story of Elizabeth Holmes and Theranos—one of the biggest corporate frauds in history—a tale of ambition and hubris set amid the bold promises of Silicon Valley, rigorously reported by the prize-winning journalist. With a new Afterword. "Chilling ... Reads like a thriller ... Carreyrou tells [the Theranos story] virtually to perfection." —The New York Times Book Review In 2014, Theranos founder and CEO Elizabeth Holmes was widely seen as the next Steve Jobs: a brilliant Stanford dropout whose startup "unicorn" promised to revolutionize the medical industry with its breakthrough device, which performed the whole range of laboratory tests from a single drop of blood. Backed by investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes's worth at an estimated \$4.5 billion. There was just one problem: The technology didn't work. Erroneous results put patients in danger, leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner, Sunny Balwani, worked to silence anyone who voiced misgivings—from journalists to their own employees.

Bound together by shared experience but pulled apart by their changing fortunes, four young friends coming of age in the postindustrial enclave of Pawtucket, Rhode Island, struggle to liberate themselves from the legacies left to them as black men in America. With potent immediacy and bracing candor, this provocative debut

follows a decade in the lives of of Dub, Rolls, Rye, and Gio as they each grapple with the complexity of their family histories, the newfound power of sex and drugs, and the ferocity of their desires. Gio proves himself an unforgettable narrator, beautifully flawed and unstintingly honest, as he recounts both the friends' conflicts and their triumphs. Whether it's a fraught family cookout, a charged altercation on the block, a raucous night in high-society Manhattan gone wrong, or the troubled efforts of a drug hustler to go clean, JM Holmes brings the thump and the heat of his scenes to life with the kind of ease that makes us not just eavesdroppers but participants. *How Are You Going to Save Yourself* illuminates in breathtaking detail an entire world—one that has been underrepresented in American fiction. At times funny, often uncomfortable, occasionally disturbing, these stories fearlessly engage with issues of race, sex, drugs, class, and family. Holmes's blistering and timely new voice, richly infused with the unmistakable rhythms of hip-hop that form the sound track to his characters' lives, delivers an indelible fiction that has never been more vital and necessary.
