The first of three volumes, this comprehensive bibliography of more than 2,200 entries includes all English-language biographies of Gandhi, writings by Gandhi, and bibliographic sources. A unique aspect of the work is a section on books read by Gandhi, a useful list for those seeking insight on Gandhi. Pandiri has carefully examined the titles included and, unlike many earlier bibliographers, he has annotated all of Gandhi's voluminous writings. He also provides in-depth descriptive and evaluative annotations for the other works, noting content, scope, authority, use, and historical significance. A vital reference tool for scholars and researchers, this volume

is the first comprehensive Gandhian bibliography since 1974. In addition to in-depth annotations, the entries include full bibliographic information. Many of the entries also include review notes of the work. Full indexes make the material easily accessible.

Forthcoming volumes will include books on Gandhian topics and articles about Gandhi and Gandhian topics.

Gandhi Monumental Legacy

As per the findings of the Korean author, the Indian business community of Baniyas i.e. Marwaris, Gujaratis, Jains, and others has ruled the Indian economy world for ages. These Baniya merchant groups with their origins in Gujarat, Rajasthan, and around are merely 2% (about 2.5 million) of the Indian population, and currently run 8-9 out of 10 top conglomerates in India. The author has credited Indian Baniyas and their 3000

years of Karma legacy for making India the economic superpower of the world. These Indian Baniya groups are and will remain dominant not only in traditional sectors but also in the new generation industries like IT-enabled e-commerce and other services. The book talks about the sacrifices made by this community, which forms the part of the global G3 (Great 3) merchant groups including Jewish and Chinese merchants who own a major chunk of business activity across the world. It shares characteristics with Korea ' s merchant community, Gaesung Merchants also. The book narrates the core competency of the Indian Baniyas and NRIs to address and prosper with this huge and prosperous country. The content of this is based on the South Korean author ' s years of research and first-hand experience while staying in Ahmadabad and parts of North India.

Remembering Independence explores the commemoration and remembrance of independence

following the great wave of decolonisation after the Second World War. Drawing on case studies from Africa, Asia, and with reference to the Pacific, the authors find that remembering independence was, and still is, highly dynamic. From flag-raising moments to the present day, the transfer of authority from colonial rule to independent nation-states has served as a powerful mnemonic focal point.

Remembering independence, in state as well as non-state constructions, connects to changing contemporary purposes and competing politic visions. Independence is a flexible idea, both a moment in time and a project, a carrier of hopes and ideals of social justice and freedom, but also of disappointments and frustrated futures. This richly illustrated volume draws attention to the broad range of media employed in remembering independence, ranging from museums and monuments to textual, oral and ritual formats of commemorative events, such as national days.

Combining insights from history and anthropology,

this book will be essential reading for all students of the history of empire, decolonisation, nation-building and post-colonial politics of memory.

The fields covered by the hydrogen energy topic have grown rapidly, and now it has become clearly multidisciplinary. In addition to production, hydrogen purification and especially storage are key challenges that could limit the use of hydrogen fuel. In this book, the purification of hydrogen with membrane technology and its storage in "solid" form using new hydrides and carbon materials are addressed. Other novelties of this volume include the power conditioning of water electrolyzers, the integration in the electric

grid of renewable hydrogen systems and the future role of microreactors and micro-process engineering in hydrogen technology as well as the potential of computational fluid dynamics to hydrogen equipment design and the assessment of safety issues. Finally, and being aware that transportation will likely constitute the first commercial application of hydrogen fuel, two chapters are devoted to the recent advances in hydrogen fuel cells and hydrogen-fueled internal combustion engines for transport vehicles. Hydrogen from water and biomass considered Holistic approach to the topic of renewable hydrogen production Power conditioning of water electrolyzers and integration of renewable hydrogen energy systems considered Subjects not included in

previous books on hydrogen energy Micro process technology considered Subject not included in previous books on hydrogen energy Applications of CFD considered Subject not included in previous books on hydrogen energy Fundamental aspects will not be discussed in detail consciously as they are suitably addressed in previous books Emphasis on technological advancements Chapters written by recognized experts Up-to date approach to the subjects and relevant bibliographic references

Forensic Facial Identification
Newnes

A transcription of a text published in British Guiana in 1948 listing 4351 individuals together with their occupations and some details of their accomplishments. This directory must have been very useful at the time of its original publication, but after nearly 70 years is of little if any practical commercial value. It has been reproduced purely for the purpose of informing current and future generations in Guyana of their ancestors and their accomplishments. From a genealogical perspective therefore, it may serve some useful purpose.

Art India Yale University Press
This handbook presents a multilayered and multidimensional history of state formation in premodern India. It explores dense and rich local and subregional historiography from the mid-first millennium BC to the eighteenth century in South Asia. Shifting the focus away from economic and political factors, this handbook revises the conventional understanding of states and empires and locates them in their quotidian conduct and activity on socio-cultural and concomitant factors. Comprehensive in

scope, this handbook addresses a range of themes connected with the idea of state formation in the subcontinent. It includes discussions and debates on ritual practices and the Brahmanical order in early India; the Delhi Sultanate and role of Sultans among the Hindu kings; the cosmopolitan 'Islamicate' cultural influences on Puranic Hinduism; cultural background of the Mughal state. The handbook examines new questions and ideologies of state formation, such as: • facets of violence and resistance; • the significance of the autonomous spaces and

forests; • regional elites, historiography, economic including 'Little kings'; tribal history, historical sociology, background of some famous cults; and South Asia studies.

• trade and maritime commerce; • *Discourses on ?iva* Jeffrey royal patronage, courtly Frank Jones manners, lineage formation; • "I wish I'd read this book imperial architecture, before everything I went monuments, and temple, among through.' Sumeer, Part-time others. Featuring case studies writer, full-time lover from different part of the India 'Author may be exaggerating subcontinent, and with some stuff. Not everything contributions by renowned has to be believed.' Priya historians, this authoritative Jain, 100-meter specialist, handbook will be an bad at marathons 'My indispensable reading for favourite travel companion.' teachers, scholars, and students Kanika Malhotra, Gypsy with a of early India, medieval India, vintage car 'If you know your premodern India, South Asian destination, your speed would history, Asian history,

tell you the time needed to cover the distance. But what if the distance is zero and the destination is inside of you? How much time does it take then? More importantly, which vehicle do you choose?' Maria, Sumeer, Kanika and Nigel embark on a similar journey at different points in their lives, to realise that love can have a different meaning for everyone, that no love can have a different meaning for everyone, that no love is greater than the other, and that love comes with possibilities, not limitations. Wandering Wheels is a gripping, stay-up-all-night treat to all the anxious souls trying to discover their places in this unfair yet beautiful world. It gives a lesson or two about unconditional love and forgiveness, incessant pain and liberation, and the serendipitous twists and turns fate brings in this journey called life, from one wheel to another.

Atong is a Tibeto-Burman
language spoken in Northeast

India and Bangladesh. In this
dictionary, Seino van Breugel
provides a rigorous, well-
illustrated and well-referenced
lexical description of the
language, making this book of
great interest and value to
general linguists, typologists,
as well as area specialists and
cultural anthropologists.
Comprising not only of an Atong-
English, but also an English-
Atong dictionary, as well as
semantic lexica, this volume is
one of the most thorough lexical
descriptions of a Bodo-Garo
language to date. The
grammatical lexica allow the
reader quick access to lists of

members of the various Atong word classes, collocations and idiomatic expressions. The grammatical compendium makes this book self-contained, while its many references link it to the rest of the author's corpus on the Atong language. The appendix of photos not only provides visual illustrations to many of the Atong dictionary entries, but also offers the reader a glance at the physical environment in which the language is spoken.

*3000 Years of Karma Legacy-
An Indian Baniya Story*

Routledge

More than half a century after his death, Mahatma Gandhi continues to inspire millions throughout the world. Yet modern India, most strikingly in its decision to join the nuclear arms race, seems to have abandoned much of his nonviolent vision. Inspired by recent events in India, Stanley Wolpert offers this subtle and profound biography of India's "Great

Soul." Wolpert compellingly chronicles the life of Mahatma Gandhi from his early days as a child of privilege to his humble rise to power and his assassination at the hands of a man of his own faith. This trajectory, like that of Christ, was the result of Gandhi's passion: his conscious courting of suffering as the means to reach divine truth. From his early campaigns to stop discrimination in South Africa to his leadership of a people's revolution to end the British imperial domination of

India, Gandhi emerges as a man other global leaders to demand of inner conflicts obscured by a better world through his political genius and moral peaceful civil disobedience. vision. Influenced early on by By boldly considering Gandhi nonviolent teachings in the man, rather than the Hinduism, Jainism, living god depicted by his Christianity, and Buddhism, he disciples, Wolpert provides an came to insist on the primacy unprecedented representation of love for one's adversary in of Gandhi's personality and any conflict as the invincible the profound complexities that power for change. His compelled his actions and unyielding opposition to brought freedom to India. intolerance and oppression **A Dictionary of Atong** Greenwood Publishing Group would inspire India like no (Screen World). Now featuring 16 pages of color photos!

Rajiv Gandhi Assassination John Wiley & Sons

In the pantheon of freedom fighters, Mohandas Karamchand Gandhi has pride of place. His fame and influence extend far beyond India and are nowhere more significant than in South Africa. "India gave us a Mohandas, we gave them a Mahatma," goes a popular South African refrain.

Contemporary South African leaders, including Mandela, have consistently lauded him as being part of the epic battle to defeat the racist white regime. The South African Gandhi focuses on Gandhi's first leadership experiences and the complicated man they reveal—a man who actually supported the British Empire. Ashwin Desai and

Goolam Vahed unveil a man who, throughout his stay on African soil, stayed true to Empire while showing a disdain for Africans. For Gandhi, whites and Indians were bonded by an Aryan bloodline that had no place for the African. Gandhi's racism was matched by his class prejudice towards the Indian indentured. He persistently claimed that they were ignorant and needed his leadership, and he wrote their resistances and compromises in surviving a brutal labor regime out of history. The South African Gandhi writes the indentured and working class back into history. The authors show that Gandhi never missed an opportunity to show his loyalty to Empire, with a particular penchant for war as a

means to do so. He served as an Empire stretcher-bearer in the Boer War while the British occupied South Africa, he demanded guns in the aftermath of the Bhambatha Rebellion, and he toured the villages of India during the First World War as recruiter for the Imperial army. This meticulously researched book punctures the dominant narrative of Gandhi and uncovers an ambiguous figure whose time on African soil was marked by a desire to seek the integration of Indians, minus many basic rights, into the white body politic while simultaneously excluding Africans from his moral compass and political ideals.
