“ In a thrilling tilt-a-whirl of crime and drama . . . Smith has carefully chosen writers concerned with the true nature of the small suburban borough. ”
—Electric Literature Staten Island may be New York City ' s forgotten borough, but it ranks high up on the list of places known for organized crime. If that wasn ' t enough to boost its noir reputation, there are its haunted mansion, hate crimes, and Cropsey urban legend. Dark deeds will always find a home on this side of the Verrazano bridge, and they give Staten Island a character all its own. Staten Island Noir includes editor Patricia Smith ' s Robert L. Fish Memorial Award – winning short story, “ When They Are Done with Us, ” which was also selected for

inclusion in The Best American Mystery Stories 2013. You ' ll find more tales by Bill Loehfelm, S.J. Rozan, Ted Anthony, Todd Craig, Ashley Dawson, Bruce DeSilva, Louisa Ermelino, Binnie Kirshenbaum, Michael Largo, Mike Penncavage, Linda Nieves-Powell, Shay Youngblood, and Eddie Joyce. “ It ' s not enough for noir to be dark. It ' s got to be bad-ass. Its words, its decaying and horrible beauty have got to hit you like a spiked heel dragged from your guts to your gullet. It ' s got to twist the hot knife of passion in that soft space right below your belly while pumping bullets into your heart. It ' s got to make you bleed . . . Staten Island Noir features some dusky and drop-dead gorgeous gems (emphasis on the dead) that do just that. ” —Grub Street Daily “ [An] exceptionally strong anthology. ” —Publishers Weekly, starred review

Trope London Hal Leonard Corporation
Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med

students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology.

The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

In this, his fourth big cookbook, the award-winning chef John Besh takes another deep dive into the charm and authenticity of creole cooking inspired by his hometown, New Orleans. Besh Big Easy: 101 Home-Cooked New Orleans Recipes, is a fresh and delightful new look at his signature food. Besh Big Easy will feature all new recipes and easy dishes, published in a refreshing new flexibound format and accessible to cooks everywhere. Much has changed since Besh wrote his bestselling My New Orleans in 2009. His restaurant empire has grown from two to twelve acclaimed eateries, from the highly praised Restaurant August to the just opened farm-to-table taqueria, Johnny Sanchez. John's television career has blossomed as well. He 's become known to millions as host of two national public television cooking shows based on his books and of Hungry Investors on Spike TV. Besh Big Easy is dedicated to accessibility in home cooking and Orleans cuisine. "There's no reason a good jambalaya

needs two dozen ingredients," John says. In this book, jambalaya has less than ten, but sacrifices nothing in the way of flavor and even offers exciting yet simple substitutions. With 101 original, personal recipes such as Mr. Sam 's Stuffed Crabs, Duck Camp Shrimp & Grits, and Silver Queen Corn Pudding, Besh Big Easy is chock-full of the vivid personality and Louisiana flavor that has made John Besh such a popular American culinary icon. Introductory Microeconomics explains the basic principles of microeconomics, producer and consumer choices, resource markets, and government policies. The book describes the economics of exchange, such as the role of economic growth, factors that determine the amount and types of exchange, the supply and demand model of market operations, price setting, price changes, and the impact of one market on other markets. The text also explains market failures in terms of free market choice, externalities of failures, monopolies, as well as scarcity and choices leading to poverty. When economic policies are considered by the state, there are trade-offs that are necessary in the exchange. Before the government should make decisions, it always has to consider two

opportunity costs, namely, 1) budget constraints, and 2) the opportunity cost of the funds spent in the private sector. For example (no. 1), if more money is spent on transfer payments, less will be left for education, national defense, infrastructure. Another example (no. 2) is when the government collects taxes, a direct loss in real income and utility among consumers will result. The book also presents real world economics in terms of the social security tax in the United States. The book can prove valuable for students of economics or business, sociologists, general readers interested in real-world economics, and policy makers involved in national economic development.

The concept of hope is central to the work of the German philosopher Ernst Bloch (1885 – 1977), especially in his magnum opus, *The Principle of Hope* (1959). The "speculative materialism" that he first developed in the 1930s asserts a commitment to humanity's potential that continued through his later work. In *The Privatization of Hope*, leading thinkers in utopian studies explore the insights that Bloch's ideas provide in understanding the present. Mired in the excesses and disaffections of contemporary capitalist society, hope in the Blochian sense has become atomized, desocialized, and privatized. From myriad perspectives, the contributors clearly delineate the renewed value of Bloch's theories in this age of hopelessness. Bringing Bloch's "ontology of Not Yet Being" into conversation with twenty-first-century concerns, this collection is intended to help revive and revitalize philosophy's commitment to the generative force of hope. Old Time Mountain Banjo Butterworth-

The complete works of one of England's greatest Edwardian writers Saki is perhaps the most graceful spokesman for England's 'Golden Afternoon' - the slow and peaceful years before the First World War. Although, like so many of his generation, he died tragically young, in action on the Western Front, his reputation as a writer continued to grow long after his death. His work is humorous, satiric, supernatural, and macabre, highly individual, full of eccentric wit and unconventional situations. With his great gift as a social satirist of his contemporary upper-class Edwardian world, Saki is one of the few undisputed English masters of the short story and one of the great writers of a bygone era. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.
